Volume 53, Issue 11, November 2023

CONTENTS

ARTICLE

Mathematical Sciences

Measuring systemic risk for financial time series: A dynamic bivariate Dvine model

..... *Yu Chen*, *Xinyi Cao*, *Shuyue Jin*, *et al.* (1101)

Inference of subgroup-level treatment effects via generic causal tree in observational studies

..... *Caiwei Zhang*, *Zemin Zheng* (1102)

Online confidence interval estimation for federated heterogeneous optimization

..... *Yu Wang*, *Wenquan Cui*, *Jianjun Xu* (1103)

Distances in a geographical attachment network model

..... *Ziling Xu*, *Qunqiang Feng* (1104)

Gaussian graphical model estimation with measurement error

..... *Xianglu Wang* (1105)

The fluctuation of eigenvalues in factor models

..... *Fanglin Bao*, *Bo Zhang* (1106)

[Parameter of Periodical] CN 34-1054/N*1965*m*A4*zh/en*P*¥30.00*600*06*2023-11
