## CONTENTS

### REVIEW

Orchestration of the dynamic molecular and cellular society in cancer by intratumoral bacteria

..... *Rutian Zhong, Xingchen Yu, Fengrui Yang, et al.* (1201)

### LETTER

Highly efficient copper-catalyzed benzylic C–H alkoxylation with NFSI

..... *Cheng Zhang, Pu-Sheng Wang* (1202)

### ARTICLE

#### Life Sciences and Medicine

Structural knowledge error, rather than reward insensitivity, explains the reduced metacontrol in aging

..... *Zhaoyu Zuo, Lizhuang Yang, Hai Li* (1203)

Machine-learning diet quality score and risk of cardiovascular disease

..... *Can Yang, Qi Li, Yan Liu, et al.* (1204)

Association study on bone metabolism in type 2 diabetes by using machine learning

..... *Jiatong Hu, Mingqing Liu, Hongqi Li, et al.* (1205)

#### Chemical Sciences

Tuning the photoluminescence of MoS<sub>2</sub>/TiO<sub>2</sub> by molecular self-assembly films

..... *Hechenyu Zha, Yue Xing, Miaomiao Xiang, et al.* (1206)

Molecular mechanism underlying ABC exporter gating: a computational study

..... *Zi Wang, Jielou Liao* (1207)

#### Mathematical Sciences

A representation of Galois dual codes of algebraic geometry codes via Weil differentials

..... *Jiaqi Li, Liming Ma* (1208)
