

CONTENTS

Chemical Sciences

Multifunctional artificial nacre via biomimetic matrix-directed mineralization

..... *Yu-Feng Meng, Bo Yang, Li-Bo Mao, et al.* (1)

Mathematical Sciences

Simultaneous inference for a high-dimensional precision matrix

..... *Wenjie Gao, Ruipeng Dong, Jie Wu* (2)

Engineering and Materials Science

Enhancing the energy potential of food waste digestate via catalytic co-hydrothermal treatment: The pyrolysis and combustion performance of hydrochar

..... *Xiefei Zhu, Zejun Luo* (3)

Insights on cellulose hydrolysis in the porous structure of biomass particles using the lattice Boltzmann method

..... *Haoyang Wei, Xiangqian Wei, Siwei Liu, et al.* (4)

Comparison between homogeneous and separated flow models of isobutane flowing through adiabatic capillary tubes

..... *Yonghui Shu, Peng Hu, Ibrahim Adnan, et al.* (5)

Management Science and Engineering

Bundling strategies for platforms with an installed base

..... *Jie Wu, Chenwei Zhou, Xiang Ji, et al.* (6)
