Information Science and Intelligence Technology

BEV-radar: bidirectional radar-camera fusion for 3D object detection

..... *Yuan Zhao*, *Lu Zhang*, *Jiajun Deng*, *et al.* (0101)

QGAE: an end-to-end answer-agnostic question generation model for generating question-answer pairs

..... *Linfeng Li*, *Licheng Zhang*, *Chiwei Zhu*, *et al.* (0102)

Robustness benchmark for unsupervised anomaly detection models

..... *Pei Wang*, *Wei Zhai*, *Yang Cao* (0103)

Efficient secure aggregation for privacy-preserving federated learning based on secret sharing

..... *Xuan Jin*, *Yuanzhi Yao*, *Nenghai Yu* (0104)

Dual-modality smart shoes for quantitative assessment of hemiplegic patients' lower limb muscle strength

..... *Huajun Long*, *Jie Li*, *Rui Li*, *et al.* (0105)

Engineering and Materials Science

Constitutive modeling of the magnetic-dependent nonlinear dynamic behavior of isotropic magnetorheological elastomers

..... *Bochao Wang*, *Yan Li*, *Haoming Pang*, *et al.* (0106)
